# Bennett R. Wu

Personal info redacted. Please contact me via <u>LinkedIn</u>. github.com/bennettrwu || linkedin.com/in/bennett-wu || bwu.dev

#### Education

## **University of Illinois Urbana Champaign**

GPA 3.98 / 4.00

Bachelor of Science in Computer Science

Aug 2022 - May 2025

- **Coursework**: Artificial Intelligence, Computational Photography, Computer Architecture, Database Systems, Parallel Programming
- In Progress: Cryptography, Programming Languages and Compilers

## Work Experience

**Expedia Group** 

Chicago, IL

Software Development Engineer Intern

May 2024 - July 2024

- Eliminated 184 duplicate licenses by migrating Salesforce integration to merged instance to help
- Advanced new feature development by developing Kafka consumer to process ad campaign events in a Kotlin SpringBoot application
- Owned projects throughout CI/CD pipeline and ultimately deployed to production
- Developed communication skills while coordinating with others to understand and validate project specifications

## **University of Illinois**

Champaign, IL

Course Assistant (CS 128)

Aug 2023 - May 2024

• Facilitated student understanding of C++ concepts including pointers, memory management, object inheritance, file streams; receiving positive feedback for effective teaching

**AbbVie**North Chicago, IL
Summer Worker
May 2023 - Aug 2023

 Slashed time from one week to a few minutes for nuclear magnetic resonance spectra analysis through automation with Python scripts

• Ensured seamless machine learning data collection by building web application on AWS for scientists to quickly view and correct machine predictions while generating result report

## **Projects**

#### **Grocery Aid**

github.com/bennettrwu/Grocery-Aid

Docker, MySQL, React.js, Node.js, TypeScript

Jan 2024 - May 2024

- A web app for exploring and comparing prices of grocery items between stores
- Implemented several MySQL queries using stored procedures and transactions and containerized application using Docker Compose

## **Focus Stacking**

github.com/bennettrwu/focus-stacking

OpenCV, Matplotlib, Python

Aug 2023 - Dec 2023

• Developed Python scripts to convert images taken at different focal depths into a depth map and focus stacked image (all parts of image in focus)

Pi Eye

github.com/Pi-Eye

OpenCL, React.js, Node.js, C++, TypeScript

Apr 2022 - Nov 2022

- · An application for converting a Raspberry Pi into a security camera with motion detection
- Achieved 30x increase in motion detection FPS at 1080p compared to existing open-source project by engineering a GPU accelerated algorithm

#### Technical Skills

Languages: C/C++, Python, JavaScript, TypeScript, Java, Kotlin, MySQL, PostgreSQL, MongoDB

Frameworks: React.js, Node.js, Express.js, Mocha, Jest, SpringBoot, OpenCL

Libraries: OpenCV, NumPy, PyTorch, Tensorflow, Matplotlib

Technologies: Git, Docker, GCP, AWS, VS Code, IntelliJ, Github Actions, Spinnaker, Kafka, GNU/Linux
